

# PARTICIPANTS NEEDED

Are you a young adult between the ages of 18 and 25 years with a diagnosis of FASD?  
Are you a caregiver of someone with FASD?  
Would you be interested in sharing some of your experiences related to identity and FASD?

## An Exploratory Study of the Identity Experiences of Young Adults with FASD

My name is Vannesa Joly, and I am a graduate student at the University of Alberta. I am interested in learning about the identity experiences of young adults with FASD.

If you are a caregiver of someone  
with FASD...

You would be asked to meet virtually with Vannesa and a small group of other caregivers for as many as three, 90 minute focus groups to talk about your experiences and perspectives around the identity experiences of people with FASD.

If you have a diagnosis of FASD and  
are 18 to 25 years old...

You would be asked to meet one-on-one with Vannesa, either virtually or over the phone, for 1 hour to talk about your identity, how you see yourself, and FASD.

If you are interested in participating...

Please contact Vannesa Joly at  
[vannesa@ualberta.ca](mailto:vannesa@ualberta.ca)

This study is being conducted at the University of Alberta and has been approved by Research Ethics Board 1 at the University of Alberta (Pro00139763)

**I LOOK FORWARD TO HEARING FROM YOU!**
